

SERENIX PROFESSIONAL AUDIO

SR-PS-440

Indoor PA pendant speaker — full-range coverage for open-ceiling spaces, on 100V, 70V or 8Ω.

SR-PS-440 is an indoor pendant speaker built around a 6-inch woofer and 1-inch tweeter for full-range paging and background music in open-ceiling interiors. Four selectable power taps (5/10/20/40W) run on a 100V or 70V distributed line, or the speaker can be driven directly at 8Ω. An ABS enclosure with a security steel ring and a supplied adjustable hanging wire make it quick to hang in malls, warehouses and other high-ceilinging spaces.

6"+1" WOOFER + TWEETER	40W MAX POWER TAP	91dB SPL @1W/1M	70Hz–18kHz FREQUENCY RESPONSE	3.2kg NET WEIGHT
